

“Actively Promoting Best Practice Performance”

Nanotechnology Supplemental Questionnaire

1. If you utilize any nanotechnology in your operations or research, please answer the following:

How is the technology used?

Are you involved in the handling of nanotubes prior to bonding and/or the formation of polymers?

Do you have any risk management initiatives in place to address these operations?

Have your employees ever experienced any type of injury due to nanotechnology operations?

2. If you do not currently utilize nanotechnology, please answer the following:

Are you aware of any nanotechnology available or in development for your industry?

Do you have any plans to utilize nanotechnology (if available) in the near future?
